Unraveling the Mysteries of the Universe What do you see when you gaze at the night sky? Do you contemplate the stars as the random result of an evolutionary process? Or do you marvel over them as a testament of the Creator's glory? Modern science has popularized a view of the cosmos that suggests there is no need for God and denies any evidence of His existence. But The Story of the Cosmos

Matching DNA samples from crime scenes and suspects is rapidly becoming a key source of evidence for use in our justice system. DNA Technology in Forensic Science offers recommendations for resolving crucial questions that are emerging as DNA typing becomes more widespread. The volume addresses key issues: Quality and reliability in DNA typing, including the introduction of new technologies, problems of standardization, and approaches to certification. DNA typing in the courtroom, including issues of population genetics, levels of understanding among judges and juries, and admissibility. Societal issues, such as privacy of DNA data, storage of samples and data, and the rights of defendants to quality testing technology. Combining this original volume with the new update--The Evaluation of Forensic DNA Evidence--provides the complete, up-to-date picture of this highly important and visible topic. This volume offers important guidance to anyone working with this emerging law enforcement tool: policymakers, specialists in criminal law, forensic scientists, geneticists, researchers, faculty, and students.

A 30-Minute Overview of Cold-Case Christianity

"The fulfilled renown of *Moby-Dick* and of *As I Lay Dying* is augmented by *Blood Meridian*, since Cormac McCarthy is the worthy disciple both of Melville and Faulkner," writes esteemed literary scholar Harold Bloom in his Introduction to the Modern Library edition. "I venture that no other living American novelist, not even Pynchon, has given us a book as strong and memorable." Cormac McCarthy's masterwork, *Blood Meridian*, chronicles the brutal world of the Texas-Mexico borderlands in the mid-nineteenth century. Its wounded hero, the teenage Kid, must confront the extraordinary violence of the Glanton gang, a murderous cadre on an official mission to scalp Indians and sell those scalps. Loosely based on fact, the novel represents a genius vision of the historical West, one so fiercely realized that since its initial publication in 1985 the canon of American literature has welcomed *Blood Meridian* to its shelf. "A classic American novel of regeneration through violence," declares Michael

Christian parenting is hard work--and it's getting harder. Parents have a deep desire to pass on their faith, but fear that today's increasingly skeptical and hostile world will eventually lead their kids to reject the truth of Christianity. That leaves many parents feeling overwhelmed--uncertain of what they can do to help their children, given the difficulty and extent of the faith challenges they will face. This practical and timely resource gives parents the confidence of knowing what to discuss with their children and how to discuss it in order to facilitate impactful conversations that will form the basis of a lifelong faith. In a friendly, parent-to-parent voice, Natasha Crain identifies 30 specific conversations about God that parents must have with their children, organizing them under the categories of - the existence of God - science and God - the nature of God - believing in God - the difference God makes Chapters are sequenced in a curriculum-oriented way to provide a cumulative learning experience, making this book a flexible resource for use in multiple settings: homes, church classes, youth groups, small groups, private Christian schools, and homeschools. Every chapter has a step-by-step conversation guide with discussion questions and tips, and content is readily adaptable for use with kids of any age (elementary through high school). Endorsements: "My prayer is that God will use this book to both motivate and equip you to help your kids develop convictions about their faith."--From the foreword by Sean McDowell, PhD, Biola University professor, speaker, and author of more than eighteen books, including A New Kind of Apologist "I can't think of a more relevant or more needed book for parents raising kids in today's culture. This book on apologetics will lead parents in critical conversations that will help grow

and guide kids to be lifelong followers of Christ."--Kristen Welch, author of *Raising Grateful Kids in an Entitled World* "Hey parents: Do you want to reduce the chances that your child will follow the crowd to the point of rejecting Christ and the values and truths you hold so dearly? Then you need to have the conversations that Natasha Crain so brilliantly describes in this book. Prevent heartbreak later by reading and heeding this book now!"--Frank Turek, PhD, president of CrossExamined Ministries and author of *I Don't Have Enough Faith to Be an Atheist* and *Stealing from God* "May this book lead to thousands more Moms and Dads engaging with their kids through an intelligent faith. And may there be tens of thousands more kids who feel loved because the adults in their lives take their questions seriously."--Jeff Myers, PhD, president, Summit Ministries

Cold-Case Christianity

In this taut, chilling novel, Lester Ballard--a violent, dispossessed man falsely accused of rape--haunts the hill country of East Tennessee when he is released from jail. While telling his story, Cormac McCarthy depicts the most sordid aspects of life with dignity, humor, and characteristic lyrical brilliance. From the Trade Paperback edition.

The Book Thief

"The voice that narrates *In the Name of the Children: An F.B.I. Agent's Relentless Pursuit of the Nation's Worst Predators*, which Rinek wrote with the journalist Marilee Strong, sounds warm and humane, qualities missing from much crime writing. Their book is a professional job, filled with illuminating details about the day-to-day operations of the bureau." —*New York Times Book Review* FBI Special Agent Jeff Rinek had a gift for getting child predators to confess. All he had to do was share a piece of his soul . . . *In the Name of the Children* gives an unflinching look at what it's like to fight a never-ending battle against an enemy far more insidious than terrorists: the predators, lurking amongst us, who seek to harm our children. During his 30-year career with the FBI, Jeff Rinek worked hundreds of investigations involving crimes against children: from stranger abduction to serial homicide to ritualized sexual abuse. Those who do this kind of work are required to plumb the depths of human depravity, to see things no one should ever have to see—and once seen can never forget. There is no more important—or more brutal—job in law enforcement, and few have been more successful than Rinek at solving these sort of cases. Most famously, Rinek got Cary Stayner to confess to all four of the killings

Read Book Gods Crime Scene A Cold Case Detective Examines The Evidence For A Divinely Created Universe

known as the Yosemite Park Murders, an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects. Rinek's recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever inside the psyche of a serial killer and a privileged glimpse into the art of interrogation. *In the Name of the Children* takes readers into the trenches of real-time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions. Rinek offers an insider's perspective of the actual case agents and street detectives who are the boots on the ground in this war at home. By placing us inside the heart and mind of a rigorously honest and remarkably self-reflective investigator, we will see with our own eyes what it takes—and what it costs—to try to keep our children safe and to bring to justice those who prey on society's most vulnerable victims. With each chapter dedicated to a real case he worked, *In the Name of the Children* also explores the evolution of Rinek as a Special Agent—whose unorthodox, empathy-based approach to interviewing suspects made him extraordinarily successful in obtaining confessions—and the toll it took to have such intimate contact with child molesters and murderers. Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families, this book offers an unprecedented look at how investigators and their loved ones cope while living in the specter of so much suffering.

never thought she would question her Christian faith. She was raised in a Christian home, where she had seen her mom and dad feed the hungry, clothe the homeless, and love the outcast. She had witnessed God at work and then had dedicated her own life to leading worship, as part of the popular Christian band ZOEgirl. All that was deeply challenged when she met a progressive pastor, who called himself a hopeful agnostic. Another Gospel? describes the intellectual journey Alisa took over several years as she wrestled with a series of questions that struck at the core of the Christian faith. After everything she had ever believed about God, Jesus, and the Bible had been picked apart, she found herself at the brink of despair . . . until God rescued her, helping her to rebuild her faith, one solid brick at a time. In a culture of endless questions, you need solid answers. If you or someone you love has encountered the ideas of progressive Christianity and aren't sure how to respond, Alisa's journey will show you how to determine—and rest in—what's unmistakably true.

The national radio host and bestselling author of *The American Miracle* reveals the happy accidents, bizarre coincidences, and flat-out miracles that continue to shape America's destiny. "A hopeful message for our troubled times . . . Michael Medved has an eye for a story, and a preternatural gift for telling it in beguiling ways." Joseph J. Ellis, Pulitzer Prize and National Book Award-winning author of *Founding Brothers* Has God withdrawn his special blessing from the United States? Americans ponder that painful question in troubled times, as we did during the devastation of the Civil War and after the assassinations of the '60s, and as we do in our present polarization. Yet somehow—on battlefields, across western wilderness, and in raucous convention halls—astounding events have reliably advanced America, restoring faith in the Republic's providential protection. In this provocative historical narrative, Michael Medved brings to life ten haunting tales that reveal this purposeful pattern, including: "A near-fatal carriage accident forces Lincoln's secretary of state into a canvas-and-steel neck brace that protects him from a would-be assassin's knife thrusts, allowing him two years later to acquire Alaska for the United States. "A sudden tidal wave of Russian Jewish immigration, beginning in 1881, coincides with America's rise to world leadership, fulfilling a biblical promise that those blessing Abraham's children will themselves be blessed. "Campaigning for president, Theodore Roosevelt takes a bullet in the chest, but a folded speech in his jacket pocket slows its progress and saves his life. "At the Battle of Midway, U.S. planes get lost over empty ocean and then miraculously reconnect for five minutes of dive-bombing that wrecks Japan's fleet, convincing even enemy commanders that higher powers intervened against them. "A behind-the-scenes "conspiracy of the pure of heart" by Democratic leaders forces a gravely ill FDR to replace his sitting vice president—an unstable Stalinist—with future White House great Harry

Truman. These and other little-known stories build on themes of *The American Miracle*, Medved's bestseller about America's remarkable rise. The confident heroes and stubborn misfits in these pages shared a common faith in a master plan, which continues to unfold in our time. *God's Hand on America* confirms that the founders were right about America's destiny to lead and enlighten the world.

In Cold Blood

A recent string of popular-level books written by the New Atheists have leveled the accusation that the God of the Old Testament is nothing but a bully, a murderer, and a cosmic child abuser. This viewpoint is even making inroads into the church. How are Christians to respond to such accusations? And how are we to reconcile the seemingly disconnected natures of God portrayed in the two testaments? In this timely and readable book, apologist Paul Copan takes on some of the most vexing accusations of our time, including: God is arrogant and jealous God punishes people too harshly God is guilty of ethnic cleansing God oppresses women God endorses slavery Christianity causes violence and more Copan not only answers God's critics, he also shows how to read both the Old and New Testaments faithfully, seeing an unchanging, righteous, and loving God in both.

author interview, and more—the definitive edition of a classic of contemporary America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. Enrique’s Journey recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States. Braving unimaginable peril, often clinging to the sides and tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: “This is a twenty-first-century Odyssey. If you are going to read only one nonfiction book this year, it has to be this one.” Praise for Enrique’s Journey “Magnificent . . . Enrique’s Journey is about love. It’s about family. It’s about home.” The Washington Post Book World “[A] searing report from the immigration frontlines . . . as harrowing as it is heartbreaking.” People (four stars) “Stunning . . . As an adventure narrative alone, Enrique’s Journey is a worthy read. . . . DNA Technology in Forensic Science

A tale of crime and punishment from a prizewinning writer. A few years ago, Andy Rosenzweig, an inspector for the Manhattan District Attorney's office, was abruptly reminded of an old, unsolved double homicide. It bothered him that Frankie Koehler, the notoriously dangerous suspect, had eluded capture and was still at large. Rosenzweig had known the victims of the crime, for they were childhood friends from the South Bronx: Richie Glennon, a Runyonesque ex-prizefighter at home with both cops and criminals, and Pete McGinn, a spirited restaurateur and father of four. Rosenzweig resolved to find the killer and close the case. In a surprising, intensely dramatic narrative, Philip Gourevitch brings together the story of Rosenzweig's pursuit with a mesmerizing account of Koehler's criminal personality and years on the lam. *A Cold Case* carries us deep into the lives and minds, the passions and perplexities, of an extraordinary cop and an extraordinary criminal whose lives were entwined over three decades. Set in a New York City that has all but disappeared, and written with a keen ear for the vibrant idiom of the colorful men and women who peopled its streets, this is nonetheless a book for our times. Gourevitch masterfully transforms a criminal investigation into a searching literary reckoning with the forces that drive one man to murder and another to hunt murderers."

A church in deep debt with attendance down by the thousands. A college that had lapsed into a coma, its buildings in shambles, its faculty demoralized, its enrollment at rock bottom. A university facing lawsuits, scandal, and near-bankruptcy. Each situation involved different financial needs, different lost dreams, different personal wounds. But they each had one thing in common: each needed a leader who could restore hope, vision, and viability. Dr. Mark Rutland has led three institutional turnarounds over the past twenty-five years. He has seen organizations that were dying come to new life. And he knows the steps you need to take right now. How do you know what to do to help your church or organization make it, even when circumstances and personnel challenges seem too much to handle? Here are the answers. As Dr. Rutland writes in this New York Times bestseller, the true leader can say, "This book is for the rugged visionaries who see in the wreckage a hope for the future and are willing to pay the price for a relaunch."

Grand Central Question

Did Jesus Really Exist? The search for the historical Jesus continues to be headline news. Any speculative theory seems to get instant attention as the debate rages about His real identity and the claims made in His name. Did Jesus really exist? Is there real historical evidence that demonstrates that He lived and actually said and did the things the Gospels record? Is there any validity to the speculative claims that the Jesus story was a myth, borrowed from a variety of pagan cultures of the ancient world? In this follow-up to the book *God's Not Dead* (that inspired the movie), *Man, Myth, Messiah* looks at the evidence for the historical Jesus and exposes the notions of skeptics that Jesus was a contrived figure of ancient mythology. It also looks at the reliability of the Gospel records as well as the evidence for the resurrection that validates His identity as the promised Messiah. *Man, Myth, Messiah* will be released concurrent to the *God's Not Dead* movie sequel, which will cover the same theme.

Enrique's Journey

ONE OF PEOPLE MAGAZINE'S BEST NEW BOOKS "A searing and intimate memoir about love turned deadly." "The BBC "An intimate illumination of sisterhood and loss." "People When Sheila Kohler was thirty-seven, she received the heart-stopping news that her sister Maxine, only two years older, was killed when her husband drove them off a deserted road in Johannesburg. Stunned by the news, she immediately flew back to the country where she was born, determined to find answers and forced to reckon with his history of violence and the lingering effects of their most unusual childhood—one marked by death and the misguided love of their mother. In her signature spare and incisive prose, Sheila Kohler recounts the lives she and her sister led. Flashing back to their storybook childhood at the family estate, Crossways, Kohler tells of the death of her father when she and Maxine were girls, which led to the family abandoning their house and the girls being raised by their mother, at turns distant and suffocating. We follow them to the cloistered Anglican boarding school where they first learn of separation and later their studies in Rome and Paris where they plan grand lives for themselves—lives that are interrupted when both marry young and discover they have made poor choices. Kohler evokes the bond between sisters and shows how that bond changes but never breaks, even after death. "A beautiful and disturbing memoir of a beloved sister who died at the age of thirty-nine in circumstances that strongly suggest murder. . . . Highly recommended." "Joyce Carol Oates

There are four ways to die, and only one of them requires an intruder. Suicides, accidental, and natural deaths can occur without any evidence from outside the room. But murders typically involve suspects external to the crime scene. If there's evidence of an outside intruder, homicide detectives have to prepare for a chase. Intruders turn death scenes into crime scenes. Join J. Warner Wallace, former atheist, seasoned cold-case detective, and popular national speaker as he tackles his most important case with you on the jury! With the expertise of a cold-case detective, J. Warner examines eight critical pieces of evidence in the "crime scene" of the universe to determine if they point to a Divine Intruder. If you have ever wondered if something (or someone) outside the natural realm created the universe and everything in it, this is the case for you.

there is still time to learn from some of the world's best thinkers on the subjects of faith and culture. Faith Blueprints are executive summaries, designed to quickly and efficiently provide you with the main concepts and highlights from some of David C Cook's best books. These blueprints are most effective when used alongside the original book as a quick reference or outline, but they can also be used by themselves. Written by an L. A. County homicide detective and former atheist, Cold-Case Christianity examines the claims of the New Testament using the skills and strategies of a hard-to-convince criminal investigator. Christianity could be defined as a "cold case": it makes a claim about an event from the distant past for which there is little forensic evidence. In Cold-Case Christianity, J. Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs. Including gripping stories from his career and the visual techniques he developed in the courtroom, Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity. A unique apologetic that speaks to readers' intense interest in detective stories, Cold-Case Christianity inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity.

Born into a Jewish ghetto in Hungary, as a child, Elie Wiesel was sent to the Nazi concentration camps at Auschwitz and Buchenwald. This is his account of that atrocity: the ever-increasing horrors he endured, the loss of his family and his struggle to survive in a world that stripped him of humanity, dignity and faith. Describing in simple terms the tragic murder of a people from a survivor's perspective, *Night* is among the most personal, intimate and poignant of all accounts of the Holocaust. A compelling consideration of the darkest side of human nature and the enduring power of hope, it remains one of the most important works of the twentieth century. Gripping True Story of War and Romance, Hope and Miracles When the odds are impossible, love goes to work. In this thrilling true-life story, readers follow the path of friendship that grows into a romance that spans continents and survives devastating hardship. Craig Keener, a respected white scholar, was cautious after a broken relationship. Médine, a well-educated African woman, met Craig through a campus ministry and the two became friends. Long after they parted for their respective worlds, Craig realized his love for her and began the arduous--and often supernatural--journey to be reunited. Médine faced terror and disease as a refugee in the war-torn Congo; Craig did not know most days if she was alive or dead. Their tender story of love beating the odds inspires readers to believe that God's own great love for each of us will always overcome.

In a world increasingly indifferent to Christian truth, followers of Christ need to be equipped to communicate with those who do not speak their language or accept their source of authority. Gregory Koukl demonstrates how to get in the driver's seat, keeping any conversation moving with thoughtful, artful diplomacy. You'll learn how to maneuver comfortably and graciously through the minefields, stop challengers in their tracks, turn the tables and---most importantly---get people thinking about Jesus. Soon, your conversations will look more like diplomacy than D-Day. Drawing on extensive experience defending Christianity in the public square, Koukl shows you how to:

- Initiate conversations effortlessly
- Present the truth clearly, cleverly, and persuasively
- Graciously and effectively expose faulty thinking
- Skillfully manage the details of dialogue
- Maintain an engaging, disarming style even under attack

Tactics provides the game plan for communicating the compelling truth about Christianity with confidence and grace.
