Four Views on the Apostle Paul

Every generation of Christian believers faces the challenge of proclaiming the gospel of Jesus Christ with integrity and in conformity to the teaching of the Scriptures. But what do the Scriptures teach with regard to the central message of the gospel? Were the Reformers correct to insist that the good news of God's gracious and free acceptance of guilty sinners, on the basis of the obedience and atoning sacrifice of Christ, lies at the heart of the gospel? Or are we to accept the "new perspectives" on Paul's teaching, which have been advocated in recent years by those who have made a fresh study of the relevant historical sources? Since the new perspectives challenge some of the basic features of the traditional Protestant understanding of justification, they require careful study and thoughtful evaluation. Nothing less than the shape of the evangelical church's proclamation of the gospel today is at stake.

Catholic in response to Protestant attacks against the Catholic Church's teaching on faith and justification in more than 100 years! As never before, the Catholic Church has been called upon to be the defender of Scripture and preserver of truth in modern times. Not by Faith Alone will set the biblical and historical record straight. But more important, as you learn the real truth about salvation and all that it embraces, this book will offer you the means to come to one of the deepest relationships with God that you have ever experienced. Faith alone? Is it justifiable? Not biblically, and Robert Sungenis shows why. Imprimatur.

Getting the Gospel Right

This book is devoted both to the problem of Paul's view of the law as a whole, and to his thought about and relation to his fellow Jews. Building upon his previous study, the critically acclaimed Paul and Palestinian Judaism, E.P. Sanders explores Paul's Jewishness by concentrating on his overall relationship to Jewish tradition and thought. Sanders addresses such topics as Paul's use of scripture, the degree to which he was a practicing Jew during his career as apostle to the Gentiles, and his thoughts about his "kin by race" who did not accept Jesus as the messiah. In short, Paul's thoughts about the law and his own people are re-examined with new awareness and great care. Sanders addresses an important chapter in the history of the emergence of Christianity. Paul's role in that development -- specially in light of Galatians and Romans -- is now re-evaluated in a major way. This book is in fact a significant contribution to the study of the emergent normative self-definition in Judaism and Christianity during the first centuries of the common era.

Paul, the Law, and the Jewish People

This landmark work, which has shaped a generation of scholarship, compares the apostle Paul with contemporary Judaism, both understood on their own terms. E. P. Sanders proposes a methodology for comparing similar but distinct religious patterns, demolishes a flawed view of rabbinic Judaism still prevalent in much New Testament scholarship, and argues for a distinct understanding of the apostle and of the consequences of his conversion. A new foreword by Mark A. Chancey outlines Sanders' achievement, reviews the principal criticisms raised against it, and describes the legacy he leaves future interpreters.

YOUCAT is short for Youth Catechism of the Catholic Church, which is the official catechism for World Youth Day. Written for high-school age people and young adults, YOUCAT is an accessible, contemporary expression of the Catholic Faith. The popular format includes Questions-and-Answers, highly-readable commentary, margin pictures and illustrations, summary definitions of key terms, Bible citations, and quotes from the Saints and other great teachers. What's more, YOUCAT is keyed to the Catechism of the Catholic Faith, so people can go deeper. It explains: What Catholics believe (doctrine) How they celebrate the mysteries of the faith (sacraments) How Catholics are to live (moral life) How they should pray (prayer and spirituality) The questions are direct and honest, even at times tough; the answers straightforward, relevant, and compelling. After the Bible, YOUCAT will likely become the go-to place for young people to learn the truth about the Catholic faith. Pope Benedict XVI wrote the foreword; Cardinal Christoph Schoenborn, the editor of YOUCAT and the Archbishop of Vienna, Austria, wrote the afterword.

This five-views work brings together an all-star lineup of Pauline scholars to offer a constructive, interdenominational, up-to-date conversation on key issues of Pauline theology. The editors begin with an informative recent history of biblical tradition related to the perspectives on Paul. John M. G. Barclay, A. Andrew Das, James D. G. Dunn, Brant Pitre, and Magnus Zetterholm then discuss how to interpret Paul's writings and theology, especially the apostle's view of salvation. The book concludes with an assessment of the perspectives from a pastoral point of view by Dennis R. Edwards.

Not by Faith Alone

This companion volume to Paul and the Faithfulness of God and Paul and His Recent Interpreters brings together N. T. Wright's most important articles on Paul and his letters over the last three decades. The book begins with Wright's auspicious essay of 1978, when as a young, aspiring scholar he gave the annual Tyndale lecture in Cambridge, and proposed, for the first time, "a new perspective" on Pauline theology. The book ends with an expanded version of a paper he gave in Leuven in 2012, when as a seasoned scholar at the height of his powers, he explored the foundational role of Abraham in Romans and Galatians.

What St Paul Really Said

How does Jesus fulfill over three hundred Old Testament Prophecies? (each listed inside this book) Is Catholicism inherently Anti-Semitic? Do the Hebrew Scriptures accurately predict Jesus of Nazareth as the Messiah? How does Jewish thinking presuppose devotion to Mary? Is the Catholic Church a fulfillment of historic Israel? How do Jewish water rituals relate to Catholic baptism? Is the Holy Sacrifice of the Mass a Passover meal? Should the Catholic priesthood conform to the priesthood established by Moses? How has the Jewish Temple influenced traditional Christian architecture? Does the Pope wear a yarmulke? Praise for The Crucified Rabbi "Taylor Marshall helps us to be more Catholic by taking our faith to its most profound depths - its ancient roots in the religion of Israel, the Judaism beloved by the Apostles, the religion of the Temple and Synagogue, the Torah and the sacrifice. Jesus said he came not to abolish that faith but to fulfill it. In this book, we see that fullness down to the smallest details. I treasure this book." Mike Aquilina, author of The Fathers of the Church "Such sparkling insights appear on almost every page, as Taylor Marshall deftly compares various features of Judaism to their Catholic counterparts: the priesthood, vestments, holy days, marriage, and saints, to name but a few. Saint Augustine's dictum, "The New Covenant is in the Old, concealed; the Old Covenant is in the New, revealed" is on full display in The Crucified Rabbi --Cale Clarke, Catholic Insight Magazine "This is a fascinating book full of interesting details. The Crucified Rabbi should be required reading for every student of the Catholic faith." Father Dwight Longenecker, author of Mary: A Catholic/Evangelical Debate

Reinventing Paul

Not by Paul Alone explores the historical reasons for the creation of the book of James and the implications for the creation of the Christian canon. Nienhuis makes a compelling case that James was written in the mid-second century and is, like 2 Peter, an attempt to provide a distinctive shape to the emerging New Testament. This book bolsters the claim that the Catholic Epistles not only have a distinct witness individually, but that collectively they are also a considered theological agenda within the Christian church.

From Torah to Paul

Ranks the Apostle Paul as "one of the most powerful and seminal minds of the first or any century," and argues that we can now sketch with confidence a new and more nuanced picture of Paul and the radical way in which his encounter with Jesus redefined his life, his mission and his expectations for a world made new in Christ. Paul, a New Covenant Jew

A Singular Bond That Changed History Even as historians credit Ronald Reagan and Pope John Paul II with hastening the end of the Cold War, they have failed to recognize the depth or significance of the bond that developed between the two leaders. Acclaimed scholar and bestselling author Paul Kengor changes that. In this fascinating book, he reveals a singular bond—which included a spiritual connection between the Catholic pope and the Protestant president—that drove the two men to confront what they knew to be the great evil of the twentieth century: Soviet communism. Reagan and John Paul II almost didn't have the opportunity to forge this relationship: just six weeks apart in the spring of 1981, they took bullets from would-be assassins. But their strikingly similar near-death experiences brought them close together—to Moscow's dismay. *A Pope and a President* is the product of years of research. Based on Kengor's tireless archival digging and his unique access to Reagan insiders, the book reveals: The inside story on the 1982 meeting where the president and the pope confided their conviction that God had spared their lives for the purpose of defeating communism Captivating new information on the attempt on John Paul II's life, including a - previously unreported secret CIA investigation—was Moscow behind the plot? The many similarities and the spiritual bond between the pope and the president—and how Reagan privately spoke of the “DP”: the Divine Plan to take down communism New details about how the Protestant Reagan became intensely interested in the “secrets of Fátima,” which date to the reported apparitions of the Virgin Mary at Fátima, Portugal, starting on May 13, 1917—sixty-four years to the day before John Paul II was shot A startling insider account of how the USSR may have been set to invade the pope's native Poland in March 1981—only to pull back when news broke that Reagan had been shot Nancy Reagan called John Paul II her husband's “closest friend”; Reagan himself told Polish visitors that the pope was his “best friend.” When you read this book, you will understand why. As kindred spirits, Ronald Reagan and John Paul II united in pursuit of a supreme objective—and in doing so they changed history.

That Nothing May Be Lost

This is a book of wisdom and insight that explains how providential are the trials through which the Catholic Church is now passing. The need of the Papal Primacy to ensure Christian unity; the true meaning of the Priesthood as a sacrament and not a mere ministry; the necessity of the Eucharist as the Sacrifice of the Savior now offering Himself on our altars; the role of the Bishops as successors of the Apostles, united with the successor of St. Peter, the Bishop of Rome; the value of suffering in union with Christ crucified; the indispensable service of the laity in the apostolate - all these themes receive from Cardinal Ratzinger new clarity and depth.

This revised edition of John Ziesler's broad yet detailed overview of St Paul's thought and distinctive kind of Christianity is intended for a general readership, and is therefore of wider value than individual and more technical commentaries. Dr Ziesler's starting point is St Paul's view of Jesus Christ as marking the end of an era and the beginning of a new world and a new humanity. The concentration is on theology, but matters of authorship and dating are discussed briefly where relevant. A number of key passages from the Pauline letters

are given a more extended treatment.

The Epistle of Paul the Apostle to The Romans

Where did the Catholic Church come from? Ask any Roman Catholic this question and, without a moment's hesitation, they will tell you they are the heirs of St. Peter. He was the first pope, leading and guiding the young Christian movement from Rome. This claim can be traced back to the first century Epistle of Clement to James. The second-century embellishment, known as the Teaching of Simon Cephus, asserts that Peter served in Rome for twenty-five years. However, there is not a single, solitary scrap of Scripture that places Peter at Rome. Not one. In the Acts of the Apostles, we read of Peter at Joppa, at Caesarea, he made a trip up to Syrian Antioch, and he played a major role in the Jerusalem Council in AD 49. When Paul wrote to the saints at Rome in AD 57, he greeted about twenty of the faithful by name--but not Peter, the supposed bishop. Paul was imprisoned in Rome from AD 60 to AD 62, and wrote at least five epistles during that period. Again, Peter is strangely missing. From Torah to Paul advances a provocative new theory of church history. Far from being the heirs of St. Peter, the Catholic Church is shown to be the offspring of the false apostles, the oldest heresy of Christendom. The evidence produced in this book proves beyond a shadow of a doubt that the conventional wisdom on Catholic origins, believed by hundreds of millions, was in fact the grand deception of the ages.

Called to Communion

John Barclay explores Pauline theology anew from the perspective of grace. Arguing that Paul's theology of grace is best approached in light of ancient notions of "gift," Barclay describes Paul's relationship to Judaism in a fresh way. Barclay focuses on divine gift-giving, which for Paul, he says, is focused and fulfilled in the gift of Christ. He both offers a new appraisal of Paul's theology of the Christ-event as gift as it comes to expression in Galatians and Romans and presents a nuanced and detailed consideration of the history of reception of Paul, including Augustine, Luther, Calvin, and Barth.

Through an exhaustive analysis of Paul's letters to the Galatians and the Roman, illuminating answers are given to the key questions about the teachings of Paul.

Medical Care at the End of Life

The Catholic church has always opposed abortion, but -- contrary to popular belief -- not always for the same reasons. This tightly argued, historically grounded study sets out to demonstrate that a "pro-choice" stance, now held by a significant minority of Catholics, is as fully justified by Catholic thought as an anti-abortion view, and may even be more compatible with Catholic tradition than the current opposition to

abortion espoused by many Catholics and most Catholic leaders. A Brief, Liberal, Catholic Defense of Abortion argues that the current Catholic anti-abortion stance is justified neither by modern embryology nor by ancient church teachings. Combining up-to-date information on fetal development with a thorough grasp of the works of the church's early thinkers, Daniel A. Dombrowski and Robert Deltete expose crucial contradictions between the early and the modern church's views of abortion. Returning to the writings of two pillars of early Christian thought, Sts. Augustine and Thomas Aquinas, the authors show that abortion was originally condemned by the church on the grounds of perversity, since it nullified the only permissible reason for sexual relations: procreation. Only in more recent times has the view arisen of abortion as indefensible on the ontological grounds that human personhood begins at the moment of conception. The authors demonstrate that the early church's view of fetal development -- delayed hominization, in which the fetus is endowed with a human soul only when it achieves a physical human body -- is diametrically opposed to the current anti-abortion stance. In fact, the authors show, the insistence on immediate hominization that provides the foundation for the current "pro-life" view stems from two seventeenth-century scientific misconceptions -- preformationism and the homunculus -- that have since been thoroughly discredited. By considering the history of Catholic thought in its relation to the history of science, Dombrowski and Deltete bring a new level of detail and focus to the abortion debate. Their thoughtful, measured argument provides a fresh perspective that will benefit participants on all sides of the controversy.

Pauline Perspectives

After the landmark work of E. P. Sanders, the task of rightly accounting for Paul's relationship to Judaism has dominated the last forty years of Pauline scholarship. Pitre, Barber, and Kincaid argue that Paul is best viewed as a new covenant Jew, a designation that allows the apostle to be fully Jewish, yet in a manner centered on the person and work of Jesus the Messiah. This new covenant Judaism provides the key that unlocks the door to many of the difficult aspects of Pauline theology. Paul, a New Covenant Jew is a rigorous, yet accessible overview of Pauline theology intended for ecumenical audiences. In particular, it aims to be the most useful and up to date text on Paul for Catholic Seminarians. The book engages the best recent scholarship on Paul from both Protestant and Catholic interpreters and serves as a launching point for ongoing Protestant-Catholic dialogue.

History of Christianity

"Therefore, since we have been justified by faith, we have peace with God through our Lord Jesus Christ" (Rom 5:1). When Paul wrote these words he seemed confident he had made himself clear. But for centuries the Pauline doctrine of justification has been a classic point of interpretation and debate in Christian exegesis and theology. And while in recent decades there have been moments of hopeful convergence among the various traditions of the Western church, the fine print often reveals more facets and distinctions than ever before. This volume focuses on five views of justification and calls on representative proponents to set forth their case and then respond to each other. The five views are: Traditional Reformed (Michael S. Horton) Progressive Reformed (Michael F. Bird) New Perspective (James D. G. Dunn) Deification, or Theosis (Veli-Matti K ä rkk ä inen) Roman Catholic (Gerald O Collins and Oliver Rafferty) In addition, editors James Beilby, Paul R. Eddy and Steven E. Enderlein provide an extensive introduction to the issues informing this important debate. This distinguished forum of biblical interpreters and theologians offers a lively and informative engagement with the biblical, historical and contemporary understandings of justification. Justification: Five Views is not only a fascinating probe into Paul's meaning, it is also a case book in theological method.

Read this book if you have ever wondered why the Catholic Church specifically claims to be Roman? It would seem that the Church of Jesus Christ would be centered in Jerusalem, the capital of the Jews, since Christ died and rose again in Jerusalem. Catholic theologian Taylor Marshall, Ph.D. provides a layman's account of how Christ chose the Rome as an instrument of redemption for the nations. Beginning with the Old Testament prophets, Dr. Marshall explains how the Messiah would come and assume reign over the nations through the Roman Empire. This book provides an exciting and popular account establishing Rome as 'the Eternal City' of Christ the King.

The Faith Explained

First published in 1976, Paul Johnson 's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude— “ a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical ” (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known ‘ Jesus Sect ’ , A History of Christianity explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

Justification

For over thirty years, David F. Kelly has worked with medical practitioners, students, families, and the sick and dying to confront the difficult and often painful issues that concern medical treatment at the end of life. In this short and practical book, Kelly shares his vast experience, providing a rich resource for thinking about life's most painful decisions. Kelly outlines eight major issues regarding end-of-life care as seen through the lens of the Catholic medical ethics tradition. He looks at the distinction between ordinary and extraordinary means; the difference between killing and allowing to die; criteria of patient competence; what to do in the case of incompetent patients; the meaning and use of advance directives; the morality of hydration and nutrition; physician-assisted suicide and euthanasia; and medical futility. Kelly's analysis is sprinkled with significant legal decisions and, throughout, elaborations on how the Catholic medical ethics tradition—as well as teachings of bishops and popes—understands each issue. He provides a helpful glossary to supplement his introduction to the terminology used by philosophical health care ethics. Included in Kelly's discussion is his lucid description of why the Catholic tradition supports the discontinuation of medical care in the Terry Schiavo case. He also explores John Paul II's controversial papal allocution concerning hydration and nutrition for unconscious patients, arguing that the Catholic tradition does not require feeding the permanently unconscious. Medical Care at the End of Life addresses the major issues that inform this last stage of caregiving. It offers a critical guide to understanding the medical ethics and relevant legal cases needed for clear thinking when individuals are faced with those crucial decisions.

The Catholic Church has the Answer

Paul

Since the publication of E.P. Sanders' *Paul and Palestinian Judaism* in 1977, Paul's soteriology has received extensive evaluation in light of second temple Judaism. These works have focused on exegesis of the Pauline text and evaluating Sanders' proposal of covenantal nomism within the second temple Jewish literature. There has been an unfortunate gap in this discussion: historical theology. This work addresses the historical claims made by proponents of the New Perspective on Paul regarding Luther's theology and the early church. In *The Righteousness of One*, Jordan Cooper demonstrates that the portrait of Luther given by many of the New Perspective writers is a caricature, read through the lens of both Protestant scholasticism and twentieth-century existentialist theology. Luther's views are more nuanced and balanced than many Pauline interpreters are willing to admit. In light of this reevaluation of Luther's own theology, early Patristic writings are evaluated in terms of similarity and disparity between Patristic Pauline interpretation and Lutheran Pauline interpretation, and thus it becomes apparent that there is continuity between the patristic tradition and Luther's reading of the Pauline text. Rather than being driven purely by medieval debates about merit, Luther's reading of Paul is both exegetically sensitive and consistent with the broader catholic tradition.

Paul has provoked people as much in recent times as he did when he was alive. Some regard him as a pestilent and dangerous fellow.
